

Calaveras County Office of Education

EXAMPLES OF EACH SCIENCE FAIR PROJECT

EXAMPLES OF AN "EXPERIMENT"

- Hypothesis
- Collect data
- List of materials
- Log book
- Multiple trials of the experiment
- Findings
- Conclusion(s), or what was learned

EXAMPLES OF A "DISPLAYS/RESEARCH"

- Space travel (example)
- Research
- Reading
- Create a display board, DVD, or PowerPoint presentation with information on it. A display of what they have learned through their research

EXAMPLES OF A "DEMONSTRATION"

- Involves something physical you can touch
- Scientific principle that you are demonstrating
- Building a model or working model of something that already exists to demonstrate a scientific fact
- Building an underwater robot (example)

EXAMPLES OF AN "INVENTION"

- Create something new to demonstrate a scientific principle

NOTE: Because the State Competition only accepts EXPERIMENTS, CCOE groups DISPLAYS/RESEARCH, DEMONSTRATIONS, and INVENTIONS separate from EXPERMENTS, and uses a separate scoring sheet.
